

Screening, Brief Intervention, and Referral for Treatment (SBIRT) Training

Overview

SBIRT is a prevention and early intervention initiative. All patients in participating medical settings are screened for risky alcohol and drug use. Evidence based brief education (5-15 minutes) or brief coaching (up to six sessions) services are offered. Additionally, referrals to specialty treatment providers are provided as needed. Screenings are offered annually.

At eSBIRT.org three curricula are offered, Screening, Brief Education/Intervention, and Brief Coaching. Each one builds on the information gained in the previous one but a user can stop at any level that meets their needs.

Screening

These modules train the user what SBIRT services are, why they are important, and how to correctly ask patients about their substance use patterns. Students will learn how to use a valid and reliable four question prescreen to quickly identify individuals who may have risky alcohol or drug use and would benefit from further screening. This prescreen should be administered annually and considered to be an integral part of routine preventative care.

Certification: Screening certification enables a provider or any staff member to administer prescreens in writing, verbally, or through technological means. This is a Medicaid billable service at MO HealthNet designated sites.

Requirements: Staff may administer the prescreen with a minimal amount of training.

- What is SBIRT? (6 min video) and quiz
- Screening and SBIRT basics module and quiz

Brief Education/Brief Intervention

Patients with a positive prescreen require further screening to categorize their substance use and, if needed, a 5-to-15-minute Brief Education session (sometimes called a Brief Intervention). These modules train the user to administer the necessary valid and reliable screening measures (e.g., the World Health Organization's ASSIST), to interpret and use the personalized feedback report, and to provide the Motivational Interviewing driven Brief Education session based on those results.

Certification: Brief Education certification enables a provider or any staff member to administer screening and other assessments in writing, verbally, or through technological means and to provide Brief Education sessions. This is a Medicaid billable service at MO HealthNet designated sites.

Requirements: Staff may provide Brief Educations services by completing the following

- Current certification in SBIRT Screening

- Screening and the ASSIST module and quiz
- Motivational Interviewing - Principles module and quiz
- Motivational Interviewing - Tools module and quiz
- Personal Feedback Report module and quiz
- Brief Intervention module and quiz

Brief Coaching

Patients with higher level of risk, but who are not yet dependent or addicted, require additional services in the form of Brief Coaching. This six-session manualized service uses techniques from Motivational Enhancement and Cognitive Behavioral Therapy. Its works to enhance the patient's motivation to change their substance use and to develop skills needed to achieve abstinence or reduce the negative impacts of substance use on their lives.

Certification: Brief Coaching certification enables staff licensed to provide substance abuse and/or mental health services in Missouri to provide Brief Coaching sessions. This is a Medicaid billable service at MO HealthNet designated sites.

Requirements: Eligible staff may provide Brief Coaching services by completing the following

- Licensed to provide substance abuse and/or mental health services in Missouri
- Current certification in SBIRT Brief Education
- Brief Coaching module and quiz
- Payment of certification fee, \$100
- Submission of recorded sample(s) of Brief Coaching for review, feedback, and approval

All modules are self-paced and contain a set of slides (in PDF format) and brief mastery assessments. To be certified to provide SBIRT services in Missouri you must complete all modules.

Steps for certification:

1. Register as a user on the eSBIRT web site <https://eSBIRT.org>
2. Click on the **SBIRT Training** tab to access and complete the courses you need.
3. Pay for any needed certifications.
4. You will receive an email from the site when your payment has been processed and access to the certificate has been enabled.
5. Print your Certificate.

We no longer require re-certification.
